

NOTE: The U. S. Government Correspondence Manual indicates the use of Office Memorandum Form 10 is optional. Its use in the Agency is not encouraged. The Letterex carbons do not have the preprinted "TO", "ATTENTION", "FROM", or "SUBJECT" words. Subsequent reference or copying of the file copy generates confusion as to just what the unexplained lines atop the carbon file copy actually refer to. Use of plain bond is recommended. The initial typing time saved in using the printed optional Form 10 is lost later by personnel referring to the carbon copies.
